

2025 Organ Donation Congress

17th Biennial Congress of
The International Society of Organ Donation Professionals

December 3-6, 2025/Kyoto International Conference Center/ www.isodp2025.jp

FINAL PROGRAM

International Society for
Organ Donation Professionals

A Section of The Transplantation Society

This program is supported by a subsidy from Kyoto City and
the Kyoto Convention & Visitors Bureau.

Bronze Sponsorship

藤田医科大学
FUJITA HEALTH UNIVERSITY

Pre-Congress Sponsor

CONGRESS INFORMATION

Congress venue

Kyoto International Conference Center (ICC Kyoto)
422 Iwakura Osagicho, Sakyo Ward, Kyoto 606-0001, Japan

How to get there from Kyoto Station

Take the Karasuma Subway Line from Kyoto Station to Kokusaikaikan Station in 20 minutes

Opening Hours

	Registration	Speaker Ready Room (104A)
Wednesday, December 03	07:30-18:30 (<i>main entrance</i>)	07:30-16:30
Thursday, December 04	07:30-18:30 (<i>Annex Hall entrance</i>)	07:30-16:30
Friday, December 05	07:30-18:00	07:30-16:30
Saturday, December 06	07:30-12:30	07:00-11:00

Do not forget to print and bring your participant ID (Name Card)

To ensure a smooth registration process on the day, we apologize for the inconvenience, but please download your participant ID (name card) in advance from MY PAGE, print it out on A4 size paper, and bring it with you.

Presenters MUST upload their presentation at the Speaker Ready Room at least 2 hours prior to their scheduled Session. The Speaker Ready Room staff will do their best to assist you in case you have compatibility or formatting issues.

Poster Information

Poster Hall: Room B-2

Authors must be present at their poster during their assigned Poster Session on December 5 from 18:15 to 19:30.

Set up your poster by December 4 before noon (12:00 pm).

Posters must be dismantled by December 6 before noon (12:00 pm).

It is desired to have posters on display following the instructions above to maximize viewing time.

No electronic recording

Unauthorized recording (audio, visual, still photography, etc) of any ISODP 2025 presentations or event is strictly prohibited. Sessions are being recorded and will be available for registrants after the congress upon consent from the presenters.

DETAILED PROGRAM

Wednesday, December 03, 2025

PRE-CONGRESS ACTIVITIES

Pre-Congress Workshop on Current status and perspective of tissue banking and transplantation

Supported by:

08:00-09:40

PC1.1 Current status and perspective of tissue banking and transplantation - Part 1 Room B-2 (2F)

Moderators: Jeffrey P. Orlowski (United States), Sumihito Tamura (Japan) and Martin Börgel (Germany)

PC1.1.1 Welcome / Framing / Jeffrey P. Orlowski and Sumihito Tamura

PC1.1.2 Tissue banking and transplantation in Japan: Current Issues and Perspectives
Shigeru Kinoshita, Japan

PC1.1.3 US Tissue Banking and AATB: Current Issues and Perspectives /
George A Herrera, NJ, United States

PC1.1.4 Global perspectives on ethical issues in the donation, manufacturing and transplantation of
Medical Products of Human Origin with special reference to the role of WHO and regional
government / Marisa Herson, Australia

09:40-09:55

Coffee Break

Main Hall Foyer

09:55-12:00

PC1.2 Current status and perspective of tissue banking and transplantation - Part 2 Room B-2 (2F)

Moderators: Jeffrey P. Orlowski (United States), Sumihito Tamura (Japan) and Martin Börgel (Germany)

PC1.2.1 Tissue banking in the Asia-Pacific region / Jinyoung Jeong, Korea

PC1.2.2 Management of Organ and Tissue donation in an OPO: an American perspective
Richard Hasz PA, United States

PC1.2.3 Global overview of tissue bank associations and the role of WUTBA / Martin Börgel, Germany

PC1.2.4 Panel Discussion on the topic: What tissue banking issue keeps you awake at night?
Panelists: Shigeru Kinoshita (Japan), George A Herrera (United States), Jinyoung Jeong (Korea),
Richard Hasz (United States)

PC1.2 Closing remarks / Jeffrey P. Orlowski (United States) and Sumihito Tamura (Japan)

Pre-Congress Workshop on Taking Asian donation to the next level

Supported by:

08:00-09:20

PC2.1 Pre-Congress Workshop on Taking Asian donation to the next level - Part 1

Room 157 (1F)

Moderators: Brian Alvarez, Spain and Pradez Sapkota, Nepal

PC2.1.1 Welcome Introduction / [Shunichi Yoshikai, Japan](#)

Confronting Current Challenges in Asia

PC2.1.2 South Korea / [Samuel Lee, Korea](#)

PC2.1.3 Japan / [Shunichi Yoshikai, Japan](#)

PC2.1.4 Philippines / [Rose Marie O. Rosete-Liquete, Philippines](#)

PC2.1.5 Iran / [Katayoun Najafizadeh, Iran](#)

PC2.1.6 United Arab Emirates / [Ali Abdul Kareem Al Obaidli, United Arab Emirates](#)

PC2.1.7 Pakistan / [Mirza Naqi Zafar, Pakistan](#)

PC2.1.8 Malaysia / [Hasdy Haron, Malaysia](#)

PC2.1.9 Vietnam / [Pham Gia Anh, Viet Nam](#)

09:20-09:45

PC2.2 Taking Asian donation to the next level - Part 2

Room 157 (1F)

Moderator: Maria PG Gomez, United Arab Emirates

PC2.2.1 Barriers identified based on previous TTS workshop and pre-conference questionnaires
[Curie Ahn, Korea](#)

Q&A from Audience

09:45-09:55

Coffee Break

Main Hall Foyer

09:55-10:25

PC2.3 Devising strategies for Asia - Part 1

Room 157 (1F)

Moderators: Ik Jin Yun, Korea

PC2.3.1 Developing a deceased organ donation and transplantation program in Iran /
[Katayoun Najafizadeh, Iran](#)

PC2.3.2 How to create and maintain effective Education program targeting Health professional &
Public: Experience from Mohan foundation / [Sunil Shroff, India](#)

PC2.3.3 Constructing an effective deceased donation program: Thailand experience /
[Supanit S Nivatvongs, Thailand](#)

10:25-12:00

PC2.4 Devising strategies for Asia - Part 2

Room 157 (1F)

Moderator: Maria PG Gomez, United Arab Emirates

PC2.4.1 Introduction / [Curie Ahn, Korea](#)

PC2.4.2 Group activity (Leaders working with each group)

Presentation of summary and action plan by each group leader

PC2.4.3 Group 1: Cultural and religious beliefs / [Brian Alvarez \(Spain\)](#)

- PC2.4.4 Group 2: Public distrust in health system / [Katayoun Najafizadeh \(Iran\)](#)
- PC2.4.5 Group 3: Misconceptions about brain death / [Hasdy Haron \(Malaysia\)](#)
- PC2.4.6 Group 4: Low awareness and advocacy / [Ali A. Kareem Al Obaidli \(United Arab Emirates\)](#)
- PC2.4.7 Group 5: Large family decision delays / [Mirza Naqi Zafar \(Pakistan\)](#)
- PC2.4.8 Group 6: Others / [Rose Marie O. Rosete-Liquete \(Philippines\)](#)
- PC2.4.9 Summary and final remarks / [Curie Ahn, Korea](#)

Pre-Congress Workshop on INternational Ethical Guidance for Research Involving deceased donation and Transplantation activity (INTEGRITY Project)

08:00-09:40

PC3.1 INternational Ethical Guidance for Research Involving deceased donation and Transplantation activity (INTEGRITY Project) - Part 1 Room C-1 (1F)

***Moderators:** Helen Opdam, Australia and John Forsythe, United Kingdom*

- PC3.1.1 Welcome and introduction / [Dominique E Martin, Australia](#)
- PC3.1.2 The role of research in deceased donation and transplantation / [Beatriz Dominguez-Gil, Spain](#)
- PC3.1.3 Ethical challenges of research: case presentations / [Emma Tumilty, Australia](#)
- PC3.1.4 Pre-mortem donor intervention studies / [Daniel Harvey, United Kingdom](#)
- PC3.1.5 Post-mortem donor intervention studies / [Mario Royo-Villanova, Spain](#)
- PC3.1.6 Registry data studies / [Georgina Irish, Australia](#)
- PC3.1.7 Secondary use of donor specimens / [Juntaro Ashikari, Japan](#)
- PC3.1.8 Ex situ organ intervention studies / [Gabriel C. Oniscu, Sweden](#)
- PC3.1.9 Studies with donor families / [Karen Rockell \(Video Presentation\)](#)
- PC3.1.10 Use of donor tissue in non-transplant research / [David D Thomson, South Africa](#)

09:40-10:10

Coffee Break

Main Hall Foyer

10:10-12:00

PC3.2 INternational Ethical Guidance for Research Involving deceased donation and Transplantation activity (INTEGRITY Project) - Part 2 Room C-1 (1F)

***Moderators:** Helen Opdam, Australia and John Forsythe, United Kingdom*

- PC3.2.1 Introducing the INTEGRITY Guidelines / [Dominique E Martin, Australia](#)
- PC3.2.2 Multidisciplinary panel discussion 1- Is consent always needed?
Panelists: [Daniel Harvey \(United Kingdom\)](#), [Georgina Irish \(Australia\)](#),
[Gabriel C. Oniscu \(Sweden\)](#), [Janet Delgado \(Japan\)](#), [Emma Tumilty \(Australia\)](#)
- PC3.2.3 Multidisciplinary panel discussion 2 – Applying the guidelines in different settings
Panelists: [Matthew Weiss \(Canada\)](#), [Marisa Herson \(Australia\)](#), [Ali Abbasi \(United States\)](#),
[David D Thomson \(South Africa\)](#), [Beatriz Dominguez-Gil \(Spain\)](#)
- PC3.2.4 Exploring the next steps for the INTEGRITY project – ESOT / [Gabriel C. Oniscu, Sweden](#)
- PC3.2.5 Exploring the next steps for the INTEGRITY project - ISODP / [Helen Opdam, Australia](#)
- PC3.2.6 Exploring the next steps for the INTEGRITY project - TTS / [Elmi Muller \(Video Presentation\)](#)
- PC3.2.7 Closing Remarks / [Dominique E Martin, Australia](#)

**Pre-Congress Workshop on Comprehensive perspectives on organ transplantation:
History, law, ethics, and clinical practice (In-Hp-Co-Seminar)**

08:00-12:00

**PC4 Comprehensive perspectives on organ transplantation: History, law, ethics, and clinical practice
(In-Hp-Co-Seminar) Room B-1 (2F)**

Moderator: Masanobu Yanase, Japan,

PC4.1 Opening remarks / Norihide Fukushima, Japan

PC4.2 History of transplant medicine: Current status and issues of organ transplantation and donation
Masanobu Yanase, Japan

PC4.3 Organ transplant act and transplant medical system / Masanobu Yanase, Japan

PC4.4 Organ transplantation practice and outcomes (including organ retrieval, transplantation, and
post-transplant management) / Masanobu Yanase, Japan

PC4.5 Definition of death (brain death) / Kazuhisa Yoshiya, Japan

MAIN CONGRESS PROGRAM

13:00-14:00

100 Opening Ceremony / Welcome Address Annex Hall Main (1F)

Facilitators: Helen Opdam, Australia and Norihide Fukushima, Japan

100.1 Welcome from the Local Organizing Committee / Norihide Fukushima, Japan

100.2 Welcome from the ISODP President / Helen Opdam, Australia

100.3 Welcome from Japan Transplant Conference President / Hiroyuki Yokota (Video presentation)

100.4 Greetings and living liver donor experience and the path to revise the Japanese
organ transplant act / Former Minister Taro Kono

100.5 The organ donation system in Japan / Juntaro Ashikari, Japan

100.6 Organ donation in Japan: History and current perspectives / Norihide Fukushima, Japan

100.7 Organ donation in the world: Current perspectives / Jeffrey P. Orlowski, OK, United States

14:00-15:30

101 Plenary Session on ISODP-DICG: Financial Neutrality in Deceased Donation and Transplantation

Supported by:

Annex Hall Main (1F)

Moderators: Thomas F. Mueller, Switzerland and David D. Thomson, South Africa

101.1 Video Presentation from India - Donor family

101.2 Perspective from Middle-East / Ali Abdul Kareem Al Obaidli, United Arab Emirates

101.3 Perspective from India / Pallavi Kumar, India

101.4 Global perspectives on financial neutrality / Thomas F. Mueller, Switzerland

Panel Discussion

15:30-16:00

Coffee Break

Swan Room

16:00-17:30

105 Concurrent Session on Carrying their gift forward: Supporting donor families Room B-2 (2F)

Moderators: Anthony Clarkson, United Kingdom and Tina A. Coco, Australia

105.1 *Video Presentation from Australia - Skin*

105.2 Respecting autonomy, facilitating connection: A relational and narrative approach to direct contact between donor families and transplant recipients / [Jordy Hermiston, Canada](#)

105.3 Navigating recipient and donor family contact / [Axel Rahmel, Germany](#)

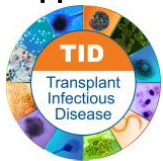

105.4 USA OPO support programs for donor families / [Elizabeth Shipman, NV, United States](#)

105.5 From evidence to global practice: Standardizing nursing interventions for donor families / [Konami Yamamoto, Japan](#)

16:00-17:30

106 Concurrent Session on ISODP-TID: Exploring the limits of transmissible diseases Room C-1 (1F)

Supported by:

Moderators: Helen Opdam, Australia and Ines Ushiro-Lumb, United Kingdom

106.1 *Video Presentation from USA - Donor and recipient family*

106.2 Screening is not the limit / [Ines Ushiro-Lumb, United Kingdom](#)

106.3 The potentially infected donor. Why decline if it can be managed? / [Matthew Roberts, Australia](#)

106.4 Donor-derived infections: insights from Asia, including arboviruses / [Jasmine Chung, Singapore](#)

106.5 HTLV-1 screening in organ donation: Perspectives from an endemic country / [Juntaro Ashikari, Japan](#)

106.6 Utilization from patient with cerebral tumor / [Mario Royo-Villanova, Spain](#)

Panel Discussion

16:00-17:30

107 Oral Abstract Session on Training and education 1 Room 157 (1F)

Moderators: Shunichi Yoshikai, Japan and Alison Hodak, Australia

107.1 Digital solutions and collaboration between authority and healthcare professions – The winning key to develop and implement guidelines at a national level? / [Emilie Gripewall, Sweden](#)

107.2 Long-term impact of a postgraduate training program in organ donation: Evidence from the ODISSeA project in Southeast Asia / [Brian Alvarez, Spain](#)

107.3 Teaching organ donation - An 8-year experience of a massive open online course / [David D Thomson, South Africa](#)

107.4 Training for organ donation coordinators in the Netherlands; A new development / [Astrid Snijders, Netherlands](#)

107.5 Engaging our workforce: Professional Success Program (PSP) / [Nina Seng, Australia](#)

107.7 Advanced practice roles in organ donation: A multi-organizational analysis of impact in the United States / [Kelsi Kolle, NV, United States](#)

107.9 Enhancing early organ donor identification in the ICU: A nurse-led checklist / [Chin Ling Tan, Singapore](#)

16:00-17:30

108 Oral Abstract Session on Ethics and legal issues

Room C-2 (1F)

Moderators: Pallavi Kumar, India and Dominique E. Martin, Australia

- 108.1 Optimizing organ donation in medico legal cases a retrospective review from the National Center for Regulating Donation and Transplantation of Human Organs and Tissues in the United Arab Emirates 2023 to 2025 / [Fatima Amer Al Jaber, United Arab Emirates](#)
- 108.2 International travel for organ transplantation by children: A survey of global activity (1 Jan 2023-31 Aug 2024) / [Amy C. Lundgren, Australia](#)
- 108.3 A step towards bridging the gender gap in deceased donor kidney transplantation / [Khushboo Saxena, India](#)
- 108.4 Organ donation after medical assistance in dying: An ethical overview / [Janet Delgado, Japan](#)
- 108.5 Building a national program for deceased donation after assisted dying in New Zealand from the ground up! / [Kim Grayson, New Zealand](#)
- 108.6 Implementation of evidence-based best practices in patient, family, and donor engagement in deceased organ donation research / [Patricia Gongal, AB, Canada](#)
- 108.7 A comparative ethical analysis of voucher programs for living kidney and blood donation / [Yashan Jiang, Australia](#)
- 108.8 An ethical approach to anti-obesity interventions in living organ donor candidates / [Ali Abbasi, CA, United States](#)

16:00-17:30

109 In-Hp-Co-Seminar on Hope through tragedy: Pediatric organ donation and donor family narratives (*Session presented in Japanese*)

Room B-1 (2F)

Moderator: Masanobu Yanase, Japan,

- 109.1 Organ donation after brain death in children / [Takashi Araki, Japan](#)
- 109.2 Donor family story / [Yoriko Komeda, Japan](#)

17:30-19:30

Networking Event on Welcome Reception

Sakura-Japanese Garden
(in the garden if weather permits)

18:00-20:00

Networking Event on Donor Appreciation Event

Annex Hall Main (1F)

Facilitator: Rie Takahashi, Japan,

Welcome from the Local Organizing Committee / [Norihide Fukushima, Japan](#)

Welcome from the ISODP President / [Helen Opdam, Australia](#)

Greetings from the guest / [Former Minister Taro Kono](#)

Cheerleader performance from [RAIDERS](#)

Break Dance performance from [JFH Dance Crew](#)

"KYO" saxophone performance & "Musubi" collaboration from [Astra Saxophone Quartet & Sakurako Nishino](#)

Closing Remarks / [Norihide Fukushima, Japan](#)

**Live Longer.
Live Better.**

NIPRO CORPORATION

3-26, Senriokashinmachi, Settsu, Osaka, 566-8510, Japan
<https://www.nipro.co.jp/>

Thursday, December 04, 2025

08:00-10:00

200 Plenary Session on Intersection Between End of Life Care and Donation Decision

Annex Hall 1 (1F)

Moderators: David D. Thomson, South Africa and Jeffrey P. Orlowski, United States

200.1 Video Presentation from USA - Donor family

200.2 US model with OPO center / Richard Hasz, PA, United States

200.3 The Current State of Organ Donation in Japan: A Perspective from an Emergency Physician /
Shoji Yokobori, Japan

200.4 Ante-mortem interventions / Matthew Weiss, QC, Canada

200.5 End of life care practices and opportunities for organ donation / Helen Opdam, Australia

200.6 Intensive care to facilitate organ donation / Nuria Masnou, Spain

Panel Discussion

10:00-10:30

Coffee Break

Swan Room

10:30-12:00

205 Concurrent Session on Donation challenges and opportunities in Asia

Annex Hall 1 (1F)

Moderators: Sunil Shroff, India and Pham Gia Anh, Viet Nam

205.1 Video Presentation from China - All organs

205.2 Japan / Juntaro Ashikari, Japan

205.3 Philippines / Benita Padilla, Philippines

205.4 Thailand / Supanit Nivatvongs, Thailand

205.5 Korea / Samuel Lee, Korea

Panelists / Pham Gia Anh (Viet Nam), Sunil Shroff (India)

10:30-12:00

206 Concurrent Session on Public trust in a donation and transplantation system

Annex Hall 2 (1F)

Moderators: Khushboo Saxena, India and Ali Abdul Kareem Al Obaidli, United Arab Emirates

206.1 Video Presentation from South Asian health action

206.2 When science is politicized where does it leave death determination and organ donation? /
Jeffrey P. Orlowski, OK, United States

206.3 Donation consent rates: Distinguishing between religion and culture /
Abdulkarim Al Shadookhi, Saudi Arabia

206.4 Building trust in South Africa / Alexia Michaelides, South Africa

206.5 From Anxiety to Trust: Supporting Stepwise Decision-Making in Organ Donation /
Yoko Y. Uryuhara, Japan

10:30-12:00

207 Concurrent Session on Pediatric donation and transplantation issues

Room C-1 (1F)

Moderators: Takashi Araki, Japan and Thomas A Nakagawa, United States

207.1 Video Presentation from China - Kidney

207.2 Critical care donor maintenance / Takashi Araki, Japan

207.3 Surgical issues of small pediatric DCD donors / Niaz Ahmad, United Arab Emirates

- 207.4 Access to Transplant Care - the influence of Paediatric Donor shortage - Challenges and solutions from South Africa / [Thozama TV Siyotula, South Africa](#)
- 207.5 Paediatric DCD in the US / [Thomas A. Nakagawa, FL, United States](#)

10:30-12:00

208 Concurrent Session on Tissue Donor Infectious Disease Testing/ Biovigilance **Room C-2 (1F)**

Moderators: *Ines Ushiro-Lumb, United Kingdom and George A. Herrera, United States and Marisa Herson, Australia*

- 208.1 *Video Presentation from United Kingdom - Cornea*
- 208.2 Donor infectious disease testing: Crossroads of tissue and organ / [Ines Ushiro-Lumb, United Kingdom](#)
- 208.3 Asian perspective on Tissue donor Infectious Disease / [Sumihito Tamura, Japan](#)
- 208.4 ID transmissions/Fatalities and FDA involvement: A lesson from USA / [George A. Herrera, NJ, United States](#)
- 208.5 Tissue transplantation and biovigilance experience in Indonesia / [Rizki RIZ Rahmadian, Indonesia](#)
- Panel Discussion

10:30-12:00

209 In-Hp-Co-Seminar on Grief and decision support in organ donation (Session presented in Japanese)

Room B-1 (2F)

Moderator: *Masanobu Yanase, Japan*

Grief care and decision support for organ donation after brain death / [Cocoro Hirai, Japan](#)

12:00-13:00

Lunch Break

Swan Room

13:00-14:00

210 Mini-Oral Abstract Session on International perspectives on donation culture and practice

Annex Hall 1 (1F)

Moderators: *Sunil Shroff, India and Silvia Perez-Protto, OH, United States*

- 210.1 Racial and ethnic disparities in preemptive kidney transplantation in the United States / [Fawaz Al Ammary, CA, United States](#)
- 210.2 Family insights on organ donation: Reasons for accept or refuse of organ donation request / [Sanaz Dehghani, Iran](#)
- 210.3 Current practices and challenges in pediatric organ donation in Japan: A single-center retrospective study / [Takafumi Obara, Japan](#)
- 210.4 Dialogue between traditional ethics and modern life: A study on the cultural tension and institutional innovation of organ donation in China / [Zhang Yongpeng, People's Republic of China](#)
- 210.5 Swedish intensive care nurses' knowledge, attitudes and views on donation after circulatory death before a national implementation / [Emilie Gripewall, Sweden](#)
- 210.6 Nepal: Learning from the decreased organ donation system in the United States of America to save more lives from organ transplantation / [Pradez Sapkota, Nepal](#)
- 210.7 Evaluation of high-potential donor hospitals in Dubai: Compliance with DHA organ donation standards and key performance indicators / [Ayesha A Al Falahi, United Arab Emirates](#)

13:00-14:00

211 Mini-Oral Abstract Session on Predicting and evaluating transplant outcomes

Annex Hall 2 (1F)

Moderators: Georgina Irish, Australia and Maria PG Gomez, United Arab Emirates

- 211.1 Developing an original kidney donor risk index model in Japan: J-KDRI / [Juntaro Ashikari, Japan](#)
- 211.3 Single-cell multi omics reveals the pivotal role of CD8+ tissue-resident memory T cells in sustaining liver allograft rejection / [Jinzhen Cai, People's Republic of China](#)
- 211.4 D-Amino acids-based estimation of glomerular filtration rate is possible using the same formula in both children and adults / [Tomonori Kimura, Japan](#)
- 211.5 Tamoxifen protects hepatic function in male wistar rats subjected to ischemia-reperfusion injury [Filipe M.O. Silva, Brazil](#)
- 211.6 Staff awareness and attitudes towards organ and tissue donation in transplanting centres vs. non-transplanting hospitals - is there a difference? / [Emiliano Mazzaretto, United Kingdom](#)
- 211.7 Development of artificial intelligence based technology for donor kidney biopsy analysis / [Seigo Nishida, NY, United States](#)

13:00-14:00

212 Mini-Oral Abstract Session on Miscellaneous donation

Room C-1 (1F)

Moderators: Shunichi Yoshikai, Japan and Elena Cavazzoni, Australia

- 212.1 Knowledge and comfort gaps in the acceptance of kidneys from deceased donors: Results of a global survey / [Marcelo Cantarovich, QC, Canada](#)
- 212.2 Implementing donation after circulatory determination of death practise to Finland / [Maarit S Lång, Finland](#)
- 212.3 Perspectives on organ donation: A survey of Australian voluntary assisted dying practitioners / [Madelene Gerardi, Australia](#)
- 212.4 A pediatric case in which organ donation was precluded by the legal obligation to perform a forensic autopsy / [Mai Miyaji, Japan](#)
- 212.5 The first national action plan in Sweden on how to increase the number of organ donors and life-saving transplantations / [Josefina Meyer, Sweden](#)
- 212.7 Predictive role of kidney volume indexed to BSA on post-donation kidney function in living kidney donors / [Kyowon Lee, Korea](#)
- 212.8 Liver transplant recipient survival by donor type / [Fawaz Al Ammary, CA, United States](#)

13:00-14:00

213 Mini-Oral Abstract Session on Transplantation topics

Room C-2 (1F)

Moderators: Thozama TV Siyotula, South Africa and Philip K.T. Li, Hong Kong

- 213.2 Plasma dynamics of DAMPs and cf-mtDNA in controlled DCD lung transplantation: Association with primary graft dysfunction / [Alberto Sandiumenge, Spain](#)
- 213.3 Impact of a standardized anesthesia protocol on safety and quality outcomes in 1289 cases undergoing robotic donor hepatectomy: A single center experience / [Amer Majeed, Saudi Arabia](#)
- 213.4 Global observatory on donation and transplantation on gender disparity in organ transplantation in India from 2019-2023 / [Khushboo Saxena, India](#)
- 213.5 Pregnancy outcomes in kidney transplant recipients / [Theresa A. Daly, PA, United States](#)
- 213.7 Identifying confounding factors of waitlist mortality and transplant probability for adult heart transplant candidates: A study of the nationwide registry data of Japan / [Juntaro Ashikari, Japan](#)

13:00-14:00

214 In-Hp-Co-Seminar on Advanced care planning (*Session presented in Japanese*) Room B-1 (2F)

Moderator: Akemi Hirao, Japan,

ACP (Advanced Care Planning) and organ donation options / Kaori Yamagata, Japan

14:15-15:45

215 Oral Abstract Session on Machine perfusion Annex Hall 1 (1F)

Moderators: John Forsythe, United Kingdom and Naoto Matsuno, Japan

- 215.1 Integrated assessment of DCD liver during hypothermic oxygenated machine perfusion with fluorescence-based quantification / Taiki Mori, Japan
- 215.2 Effect of hypothermic machine perfusion of the small intestine assessed by serosal electrical potential and peristalsis / Mio Takashima, Japan
- 215.3 Development and optimization of transplant surgeon-innovated EVMP: Validation in a porcine DCD liver transplant model / Mun Chae Choi, Korea
- 215.4 Development of compact and transportable hypothermic machine perfusion system for marginal kidney donors / Masafumi Furukawa, Japan
- 215.5 The benefit of an organ procurement driven machine perfusion program / Elizabeth Shipman, NV, United States
- 215.6 Hypothermic oxygenated machine perfusion of kidneys from elderly donors and donors after circulatory death / Vasiliy Bogdanov, Russian Federation
- 215.7 Small intestinal ischemia/reperfusion injury prediction during the subnormothermic machine perfusion focusing on the electrogastroenterogram / Satoshi Muto, Japan
- 215.8 Rethinking normothermic liver perfusion: The case for organ procurement organizations as the ideal hub for ex vivo organ optimization / Jeffrey P. Orlowski, OK, United States
- 215.9 Prospect of an organ donation after uncontrolled death by circulatory criteria program in Canada: Perspectives of leaders and key stakeholders / Kendra-Lee Dupuis, ON, Canada

14:15-15:45

216 Oral Abstract Session on Donation system organisation 1 Annex Hall 2 (1F)

Moderators: Richard Hasz, United States and Takahiro Atsumi, Japan

- 216.1 Effectiveness of dedicated in-hospital organ donation teams (CIHDOTT) in Brazil: A five-year retrospective analysis (2020–2024) / Luiz Gustavo Torres Dias da Cruz, Brazil
- 216.2 Is India ready for “One India One Allocation Policy” in deceased donor kidney transplant? / Khushboo Saxena, India
- 216.3 Deceased organ donation activity in 16 focus hospitals in Malaysia: A retrospective 2024 analysis Hasdy Haron, Malaysia
- 216.4 Strategic advancements in organ donation within the UAE - A model of ethical governance, operational efficiency, and multisectoral collaboration- organ donation experience in the UAE: A comprehensive overview / Hicham Jamil Aboualloul, United Arab Emirates
- 216.5 International travel for organ transplantation from deceased donors: a survey of global activity (1 Jan 2023-31 Aug 2024) / Amy C. Lundgren, Australia
- 216.6 A comparative study of global organ donation systems: Pathways to improvement / Katayoun Najafizadeh, Iran
- 216.7 Uniquely Tasmanian – Learnings from our island state / Katherine F. Gray, Australia
- 216.8 Organ donation following medical assistance in dying: A Canadian environmental scan / Amina R. Silva, ON, Canada

- 216.9 Guinness world record of organ donation & incredible journey of HAYAT-United Arab Emirates
[Priya Santharaj, United Arab Emirates](#)

14:15-15:45

217 Oral Abstract Session on Extended criteria with/without ID

Room C-1 (1F)

Moderators: *Ines Ushiro-Lumb, United Kingdom and Michael J. O'Leary, Australia*

- 217.1 Development of a HIPAA compliant cloud based donor liver biopsy share with artificial intelligence technology / [Seigo Nishida, NY, United States](#)
- 217.2 High renal resistance, high reward? Donor characteristics and biopsy findings predict outcomes beyond perfusion metrics / [Nicholas J. Blount, NJ, United States](#)
- 217.3 The impact of donor-derived human herpes virus type 8 in solid organ transplantation - The UK donor screening experience / [Ines Ushiro-Lumb, United Kingdom](#)
- 217.4 Clinical risk aversion of potential deceased kidney donors forgone for biovigilance concerns: A data-linkage study / [Rachel Cutting, Australia](#)
- 217.5 Clinical assessment of the utility of metagenomic next-generation sequencing in organs for transplantation from a donor with primary meningoencephalitis due to *Naegleria fowleri* / [Wei Zhou, People's Republic of China](#)
- 217.6 Successful abdominal organ recovery from a donor with septic emboli due to infective endocarditis / [Samantha Endicott, MA, United States](#)
- 217.7 Microsatellite instability analysis, new use in donation and transplantation / [Adriana Sánchez Ginés, Spain](#)
- 217.8 Organ donation in burns patients: A retrospective analysis of outcomes in the Alfred ICU / [Georgie Callaghan, Australia](#)

14:15-15:45

218 Oral Abstract Session on Public awareness

Room C-2 (1F)

Moderators: *Shunichi Yoshikai, Japan and Lucinda Barry AM, Australia*

- 218.1 Creating new ways to increase organ donation awareness: The first organ donation and transplants museum of the world! / [Ernesto Duarte Tagles, Mexico](#)
- 218.2 Using behavioural insights and audience segmentation to increase organ donation registration in Australia / [Mark McDonald, Australia](#)
- 218.3 Global survey on disparities in education on organ donation and transplantation / [Andrea Herrera-Gayol, QC, Canada](#)
- 218.4 Bringing organ donation into focus: Nationwide community engagement efforts through the Live On Festival / [May Thu Ko, Singapore](#)
- 218.5 Developing personas to enable tailored public health communications: The case of organ donation in Quebec / [Martine Bouchard, QC, Canada](#)
- 218.6 Developing and validating a scale to measure public trust in deceased organ donation and transplantation / [Janet Delgado, Japan](#)
- 218.8 Medical personnel awareness of organ donation is key success in health service area 7, Thailand
[Ploytip Jansiriyotin, Thailand](#)
- 218.9 Actions for promoting organ donation: An experience report from a health-promoting university in Brazil / [Luiz Gustavo Torres Dias da Cruz, Brazil](#)

14:15-15:45

219 In-Hp-Co-Seminar on Donor family nursing practice
(Session presented in Japanese)

Room B-1 (2F)

Moderator: Norihide Fukushima, Japan

Simulation of organ donation (donor family nursing practice) / [Norihide Fukushima, Japan](#)

15:45-16:15

Coffee Break

Swan Room

16:15-17:45

220 Concurrent Session on Advancements in organ preservation

Annex Hall 1 (1F)

Moderators: Matthew Weiss, Canada and Naoto Matsuno, Japan

220.1 *Video Presentation from Spain - Various*

220.2 Overview of NRP outcomes / [Gabriel C. Oniscu, Sweden](#)

220.3 Progress of clinical use of machine perfusion and organ preservation solution based on basic research / [Naoto Matsuno, Japan](#)

220.4 Machine perfusion in the UK: Technology and logistics / [Peter J. Friend, United Kingdom](#)

16:15-17:45

221 Concurrent Session on Saving Lives Together: A unified approach to organ transplantation in underserved areas

Annex Hall 2 (1F)

Moderators: Brian Alvarez, Spain and Maria PG Gomez, United Arab Emirates

221.1 *Video Presentation from USA - Kidney*

221.2 The factors hindering the development of organ donation and the desirable enlightenment for the future in Japan / [Shunichi Yoshikai, Japan](#)

221.3 Building sustainable deceased donation program UAE experience / [Ali Abdul Kareem Al Obaidli, United Arab Emirates](#)

221.4 Challenges in making change / [Alexia Michaelides, South Africa](#)

221.5 Enhancing healthcare equity: Public-private partnerships for organ donation and transplantation in underserved areas / [Pallavi Kumar, India](#)

16:15-17:45

222 Concurrent Session on Fostering a culture of donation through early education: Yes, you CAN talk to kids about organ donation

Room C-1 (1F)

Supported by:

Moderators: Elizabeth Shipman, United States and Dale Gardiner, United Kingdom

222.1 *Video Presentation from Canada - Heart*

222.2 Organs, health and kindness: Pillars for learning and caring about donation /
Co-presentation: [Roydon Turner \(United Kingdom\)](#) and [Jenny Ryan \(Canada\)](#)

222.3 Logan Boulet effect: A catalyst for change and acceptance of early learning /
[Bernadine C. Boulet, Canada](#)

222.4 A world's first Heart to Heart Exchange – from Canada to South Africa
Co-presentation: [David D. Thomson \(South Africa\)](#) and [Peggy John \(Canada\)](#)

222.5 A Heart to Heart with brain (Mighty vs. Vital) – accessible concepts for understanding brain death
[Sam Shemie, QC, Canada](#)
Panel discussion

16:15-17:45

223 Concurrent Session on Training and certification of tissue transplant staff from a global perspective Room C-2 (1F)

Moderators: *Michael J Palmisano, United States and Martin Börgel, Germany*

- 223.1 *Video Presentation from United Kingdom - Hands*
 - 223.2 Perspective from South Korea / [Jinyoung Jeong, Korea](#)
 - 223.3 Perspective from Japan / [Takashi Kenmochi, Japan](#)
 - 223.4 Perspective from Germany / [Jan Kniese, Germany](#)
 - 223.5 Perspective from USA / [Michael J. Palmisano, SC, United States](#)
- Panel Discussion

16:15-17:45

224 In-Hp-Co-Seminar on The OPO coordinator's role in ethical end-of-life care and family support (Session presented in Japanese) Room B-1 (2F)

Moderator: *Akemi Hirao, Japan*

- 224.1 The role of OPO Coordinator / [JOT CO \(TBD\)](#)
- 224.2 Family nursing, end-of-life care in emergency situations, and medical ethics / [Akemi Hirao, Japan](#)

19:00-22:00

Networking Event on Congress Dinner
Congress Dinner at Ganko Takasegawa Nijoan - **TICKET required**

Friday, December 05, 2025

08:00-09:00

300 Plenary Session on Current Challenges and Progress in Death Determination: Impact and opportunities for donation?

Annex Hall 1 (1F)

Moderators: Shunichi Yoshikai, Japan and Stephen Beed, Canada

300.1 Video Presentation from Iran - Family of donors

300.2 Unified brain based definition & determination of death / Sam Shemie, QC, Canada

300.3 Unified concept of death definition / Francesco Procaccio, Italy

09:00-09:30

Coffee Break

Swan Room

09:30-11:00

305 Oral Abstract Session on Organ utilization Annex Hall 1 (1F)

Moderators: Axel Rahmel, Germany and Thomas D. Mone, United States

305.1 Non-retrieval and non-utilisation of deceased donor kidneys for transplantation:

An Australian cohort study / Rachel Cutting, Australia

305.2 Impact of regulatory pressure on kidney recovery and utilization in the United States /

Elizabeth Shipman, NV, United States

305.3 Insights from refusal patterns for deceased donor kidney offers / Grace Guan, CA, United States

305.4 Dynamic predictions for assessing hard-to-place deceased donor kidneys /

Grace Guan, CA, United States

305.6 Global survey on knowledge and comfort gaps in the acceptance of deceased donors /

Marcelo Cantarovich, QC, Canada

305.7 Deceased kidney donor cystatin C and subsequent recipient kidney function one year after transplantation / Isabelle J.C. Dielwart, Netherlands

305.9 The role of AI in organ procurement organizations: Building socially responsible AI tools to improve outcome while bridging disparities / Aninda Dutta, CA, United States

09:30-11:00

306 Oral Abstract Session on Donation after circulatory determination of death (DCDD)

Annex Hall 2 (1F)

Moderators: Juntaro Ashikari, Japan and Helen Opdam, Australia

306.1 International consensus recommendations for the adult pathway of controlled donation after circulatory determination of death (cDCDD) / Helen Opdam, Australia

306.2 Organ and tissue donation outcomes of an integrated refractory cardiac arrest program including ECMO-CPR (ECPR) and uncontrolled donation after circulatory death (UDCD) in a tertiary university hospital in Spain / Adriana Sánchez Ginés, Spain

306.3 Organ donation after euthanasia in the Netherlands, a summary of 12 years' experience / Anouk Banken-Vandewall, Netherlands

306.4 Improving prediction of donation after circulatory death to increase organs available for transplant / Samantha Endicott, MA, United States

306.5 From hospice to hope: The DCD pathway to life-saving donations / Sadie Everts, NV, United States

- 306.6 Parent perspectives about the potential for and process of infant organ donation: Preliminary findings from a co-designed qualitative study / [Julia St Louis, ON, Canada](#)
- 306.7 Controlled DCD in Sweden – National implementation, expansion and future directions / [Markus Gäbel, Sweden](#)
- 306.8 Voluntary Assisted Dying (VAD) and organ donation following self-ingested oral vada substance in Victoria, Australia: Clinical integration and case-based insights following the world's first case / [Joanne L Kantianis, Australia](#)

09:30-11:00

307 Oral Abstract Session on Consent and family approach

Room C-1 (1F)

Moderators: Janet Delgado, Japan and Vanessa Silva e Silva, Canada

- 307.1 Beyond legislation: Evaluating specialist nurse training and the human dimensions of England's opt-out organ donation law / [Cathy Miller, United Kingdom](#)
- 307.2 UK opt-out legislation: Impact on organ donor registrations and consent/authorisation / [Dale Gardiner, United Kingdom](#)
- 307.3 Complete referral analysis definitively determines OPO family authorization approach rates by race / [Thomas D. Mone, CA, United States](#)
- 307.4 Data driven quality improvement using grading of donation conversations / [Sam Radford, Australia](#)
- 307.5 Consent and complexity: Organ donation decisions in a multicultural UAE organ donation program HAYAT / [Lijamol Joseph, United Arab Emirates](#)
- 307.6 Influence of demographic variables on family consent for organ donation in Saudi Arabia 2021-2023 a quantitative study / [Raed A. Alghamdi, Saudi Arabia](#)
- 307.8 Barriers to consent in Australia within those opted-in to donate / [Mark McDonald, Australia](#)
- 307.9 Temporal trends in organ donation consent rates in New South Wales, Australia / [Rachel Cutting, Australia](#)

09:30-11:00

308 Oral Abstract Session on Living donation

Room C-2 (1F)

Moderators: Koji Umeshita, Japan and Mirza Naqi Zafar, Pakistan

- 308.1 Evolving risk profiles and follow-up trends in 2,023 living kidney donors: A two-decade single-center experience in South Korea / [Juhan Lee, Korea](#)
- 308.2 Living donor involvement in international travel for organ transplantation: A survey of global activity (1 Jan 2023-31 Aug 2024) / [Yashan Jiang, Australia](#)
- 308.3 QUALITY score: Development of integrative prognostic index for living donor liver using multicentric registry data / [Mun Chae Choi, Korea](#)
- 308.4 Project donor: An international program to improve the health of living organ donors / [Ali Abbasi, CA, United States](#)
- 308.5 IDEA: Development of the first decisional support tool for black American potential living kidney donors contemplating APOL1 genetic testing / [Heather M. Gardiner, NY, United States](#)
- 308.6 Long-term renal function of kidney donors aged 50 years or older after 15 years of donation. A report from a donor clinic in a low middle-income country / [Mirza Naqi Zafar, Pakistan](#)
- 308.7 Living kidney donation and obesity: A systematic review and meta-analysis / [Fawaz Al Ammary, CA, United States](#)
- 308.8 Integrating telemedicine into a hybrid care model in living kidney donor evaluation: A mixed-methods study / [Fawaz Al Ammary, CA, United States](#)

- 308.9 Biomarkers to predict major adverse kidney event in liver transplant recipients:
A single centre, prospective cohort study / [Bhavin Modasia, India](#)

09:30-11:00

309 In-Hp-Co-Seminar on Donor evaluation and management (Session presented in Japanese)

Room B-1 (2F)

Moderator: Norihide Fukushima, Japan,
Donor Evaluation and Management / [Norihide Fukushima, Japan](#)

11:10-12:40

310 Concurrent Session on Organ donation organization architecture: Planning and building the structure of a solid system Room C-1 (1F)

Moderators: Ali Abdul Kareem Al Obaidli, United Arab Emirates and Brian Alvarez, Spain

- 310.1 Key elements for a successful donation system / [Claire Williment, United Kingdom](#)
- 310.2 Evolution: Current challenges in transformation to a sustainable organ donation system / [Juntaro Ashikari, Japan](#)
- 310.3 Building sustainability: Fundraising challenges and opportunities for ODO / [Sunil Shroff, India](#)
- 310.4 Deceased organ donation: in search for excellence / [Beatriz Dominguez-Gil, Spain](#)

11:10-12:40

311 Concurrent Session on Are we really doing better? Measuring performance and establishing standards in a deceased donation system Annex Hall 2 (1F)

Moderators: Jeffrey P. Orlowski, United States and Peggy John, Canada

- 311.1 *Video Presentation from Malaysia*
- 311.2 Potential donor audit to drive best practices / [Helen Opdam, Australia](#)
- 311.3 The difficulties of data standardization across a large system / [Matthew Cooper, WI, United States](#)
- 311.4 Regional performance and how to leverage data to improve / [Maria PG Gomez, United Arab Emirates](#)
- 311.5 Comparing regional performance within a jurisdiction / [John Richardson, United Kingdom](#)

11:10-12:40

312 Concurrent Session on Organ donation after medical assistance in dying Annex Hall 1 (1F)

Moderators: Daniel Harvey, United Kingdom and Dominique E Martin, Australia

- 312.1 *Video Presentation from Canada - MAID*
- 312.2 Perspective from Spain / [Nuria Masnou, Spain](#)
- 312.3 Perspective from Canada / [Matthew Weiss, QC, Canada](#)
- 312.4 Kaizen down-under - Improving organ donation after voluntary assisted dying in Australia / [Wade Stedman, Australia](#)
- 312.5 Organ donation after euthanasia in patients suffering from psychiatric disorders / [Hanne Verbergh, Netherlands](#)

11:10-12:40

313 Concurrent Session on Living donation: Protecting and respecting living donors, are we doing enough? Room C-2 (1F)

Moderators: Khushboo Saxena, India and Shiro Takahara, Japan

313.1 *Video Presentation from Nepal - Living donor*

313.2 Protecting and respecting living donors - Justification of pediatric donation and protecting the donor / Ik Jin Yun, Korea

313.3 The risks associated with living-donor when they travel for transplant and the burden of follow up / Thomas F. Mueller, Switzerland

313.4 Assessment is sometimes made on narrow criteria considering just the health outcome rather than broader benefits/interests / Georgina Irish, Australia

313.5 Japanese Registry of Living Organ Donors (Kidney, Liver, Lung and Intestine) / Koji Umeshita, Japan

11:10-12:40

314 In-Hp-Co-Seminar on Simulation of organ donation after brain death (Session presented in Japanese) Room B-1 (2F)

Moderator: Masanobu Yanase, Japan,

Simulation of organ donation after brain death (from donor evaluation and management to organ removal surgery) / Masanobu Yanase, Japan

12:40-13:40 Lunch Break Swan Room

13:40-14:40

315 Plenary Session on Artificial Intelligence (AI) in Donation Systems: The potential advantages and ethics of utilization in donor identification and allocation Annex Hall 1 (1F)

Moderators: Matthew Weiss, Canada and Kazunari Tanabe, Japan

315.1 *Video Presentation from UK - Donor family*

315.2 Behavioural science for better health and AI / Kristina Curtis, United Kingdom

315.3 Donation advisor that would help predict the likelihood of a patient becoming a donor in certain circumstances / Sonny Dhanani, ON, Canada

14:45-16:00

316 Plenary Session on ISODP Business Meeting and Awards Annex Hall 1 (1F)

ISODP business meeting

ISODP and TTS scientific congress awards

Council working group report

14:45-16:00

317 In-Hp-Co-Seminar on The role of the in-hospital coordinator (Session presented in Japanese) Room B-1 (2F)

Moderator: Masanobu Yanase, Japan

The role of the in-hospital coordinator / JOT CO (TBD)

16:00-16:30	Coffee Break	Swan Room
--------------------	---------------------	------------------

16:30-18:00

320 Oral Abstract Session on Donor detection

Room C-1 (1F)

Moderators: *Stephen Beed, Canada and Sam Radford, Australia*

- 320.1 Successful use of organs from donors with severe burns /
[Jill Paulette Stinebring, MA, United States](#)
- 320.3 Organ donor potential after extracorporeal cardiopulmonary resuscitation for out-of-hospital cardiac arrest – A post-hoc analysis of a randomized controlled trial
[Hanne Verberght, Netherlands](#)
- 320.4 Ten year exploration of organ donation from the emergency department in the UK
[Dale Gardiner, United Kingdom](#)
- 320.6 Global survey on knowledge and comfort gaps of critical care specialists about deceased donation / [Stephen Beed, NS, Canada](#)
- 320.7 Enhancing donor detection and referral: Insights from Tawam Hospital's critical care support unit, Al Ain, United Arab Emirates / [Jocelyn T. Gundan, United Arab Emirates](#)
- 320.8 NURTURE: Identifying missed tissue donation referrals and implementing targeted ward-based interventions to improve end-of-life donation practice / [Marco Arrighi, United Kingdom](#)
- 320.9 Collaborating with medicolegal professionals: Maximizing donation opportunities /
[Jonathan Boyd, NC, United States](#)

16:30-18:00

321 Oral Abstract Session on Cultural and religious considerations

Annex Hall 1 (1F)

Moderators: *Jeffrey P. Orłowski, United States and Katayoun Najafizadeh, Iran*

- 321.1 Co-created videos and community diffusion: Familiarity and trust in migrant communities and a willingness to know more about organ donation / [Ramanathan Lakshmanan, Australia](#)
- 321.2 Disciplinary construction of organ donation in China - Practical experience of the First Affiliated Hospital of Xi'an Jiaotong University / [Zhang Yongpeng, People's Republic of China](#)
- 321.4 Analyzing how personal and cultural beliefs influence attitudes toward organ donation in Saudi Arabia with a focus on awareness levels traditions and the role of family in the decision-making process / [Raed A. Alghamdi, Saudi Arabia](#)
- 321.5 Delivering culturally competent care in the London organ donation service team /
[Tamara Vega, United Kingdom](#)
- 321.6 “When you’re dead you’re Tapu”: Māori family views on Indigenous organ donation following assisted death / [Tess H Moeke-Maxwell, New Zealand](#)
- 321.7 University students’ attitudes toward organ donation in Japan: A cross-sectional study
[Konami Yamamoto, Japan](#)
- 321.8 Building cultural safety for the Indigenous organ donor and their Whānau (family)
[Sue H. Garland, New Zealand](#)

16:30-18:00

322 Oral Abstract Session on Training and education 2

Room C-2 (1F)

Moderators: *Peggy John, Canada and Chloë Ballesté Delpierre, Spain*

- 322.1 Education in donation of organs for transplants (EDOT): A novel certificate to strengthen Canada's organ and tissue donation coordinator workforce / [Vanessa Silva e Silva, ON, Canada](#)

- 322.2 Organ donation coordinators' major stressors and satisfying aspects of the role: A Canadian qualitative study / [Vanessa Silva e Silva, ON, Canada](#)
- 322.3 Enhancing organ donation outcomes through targeted ICU staff training: evidence from a Dubai based trauma center / [Ammar M Abdelhadi, United Arab Emirates](#)
- 322.4 OPO sustains increased donation rates achieved during a 5-year period of standardizing authorization and referral response practices through consultation with an international training center / [Theresa A Daly, PA, United States](#)
- 322.5 Advancing donation specialist nurse proficiency through high-fidelity simulation: An innovative training approach / [Monique Drury, Australia](#)
- 322.6 Empowering the healthcare professionals with education on organ donation and procurement in a tertiary facility in Al Ain Region, United Arab Emirates / [Theresa Coelho, United Arab Emirates](#)
- 322.7 Simulation training for specialist nurses and intensive care medical teams in organ donation / [Olive McGowan, United Kingdom](#)
- 322.8 Evaluation of mentoring experience by nurse residents: Application of the net promoter score in a university hospital / [Luiz Gustavo Torres Dias da Cruz, Brazil](#)
- 322.9 (107.8 in the Journal) Developing a coping strategies toolkit for organ and tissue donation coordinators: A quality improvement initiative / [Amina R Silva, ON, Canada](#)

16:30-18:00

323 Oral Abstract Session on Consent and family approach / family care

Annex Hall 2 (1F)

Moderators: Tina A. Coco, Australia and Alexia Michaelides, South Africa

- 323.1 'Information overload': understanding experiences of seeking and providing consent for interventional research in the deceased organ donor. A qualitative study / [Daniel Harvey, United Kingdom](#)
- 323.3 What happens after the gift? Insights from Organ procurement organizations on strengthening aftercare in the United States / [Macey L Levan, NY, United States](#)
- 323.4 Impact of organ donation on grief symptoms in donor families / [Sanaz Dehghani, Iran](#)
- 323.5 The value of anonymous contact / [Laurianne van Loenen, Netherlands](#)
- 323.6 Support tools to help families cope with organ donation processes: A scoping review / [Ken Lotherington, NS, Canada](#)
- 323.7 Participation of a donation nurse in family donation conversations is associated with higher rates of family consent to donation irrespective of who leads the conversation / [Michael J O'Leary, Australia](#)
- 323.8 Decision-making in end-of-life care — choices and support in 85 patients identified as having a potential brain-death condition (PBD) / [Yoshiyuki Ueda, Japan](#)
- 323.9 Timing matters: Engaging potential donor families sooner increases authorization rates / [Jill Paulette Stinebring, MA, United States](#)

16:30-18:00

324 In-Hp-Co-Seminar on Opinion exchange meeting (Session presented in Japanese) Room B-1 (2F)

Moderator: Akemi Hirao, Japan

- 324.1 Opinion exchange meeting (regarding future hospital activities) / [Akemi Hirao, Japan](#)
- 324.2 Closing Remarks / [Norihide Fukushima, Japan](#)

18:15-19:30

Poster Session

Room B-2 (2F)

Poster Discussants: Georgina Irish, Australia / David D. Thomson, South Africa / Shunichi Yoshikai, Japan / Alison Hodak, Australia / Maria PG Gomez, United Arab Emirates / Juntaro Ashikari, Japan / Sunil Shroff, India / Helen Opdam, Australia / Jeffrey P. Orlowski, United States / Tina A. Coco, Australia / Matthew Weiss, Canada / Peggy John, Canada / Stephen Beed, Canada / Silvia Perez-Proto, United States.

- P.01 Single center experience in complex liver transplantation / [Jinzhen Cai, People's Republic of China](#)
- P.02 3D autosegmentation of hepatic venous territories of living liver donor focusing on right hemi liver grafts using Swin UNET model / [Okjoo Lee, Korea](#)
- P.04 Effects of ischemic preconditioning on liver function markers in an experimental model using C57BL/6 ob/ob mice / [Alexandre Chagas Santana Sr, Brazil](#)
- P.05 Medical laboratory tests and their relationship to organ transplant and donation results in the kingdom of Saudi Arabia / [Yaser M Kattoah Sr, Saudi Arabia](#)
- P.06 Understanding brain death and the extent of acceptance of donating organs from brain-dead individuals in the Arab Gulf countries through a regional survey to assess awareness levels and cultural influences on donation decisions / [Yaser M Kattoah Sr, Saudi Arabia](#)
- P.07 Exploring influencing factors for the wrong decision from kidney and liver failure patients to accept organs donation from their relatives / [Yaser M Kattoah Sr, Saudi Arabia](#)
- P.08 Analysis of the factors affecting the increasing in organ transplant waiting list for patient with organ failure in the Kingdom of Saudi Arabia / [Yaser M Kattoah Sr, Saudi Arabia](#)
- P.09 Considerations of cornea donation decision-making among terminal cancer patients and families/ [Chang Hsuan Peng, Taiwan](#)
- P.10 Ethical and clinical challenges in managing brain death during pregnancy / [Ahmed A Abdelhafiz, United Arab Emirates](#)
- P.11 MABUHAY donors program 2024-2025 to improve organ donation at Southern Philippines Medical Center / [Maria Theresa Lorenzo Bad-ang, Philippines](#)
- P.12 Trend in utilization of donor hearts with extracorporeal corporeal membrane oxygenation support in South Korea / [Sun Young Oh, Korea](#)
- P.13 Understanding delays in organ donation after circulatory death in the UK / [Daniel Harvey, United Kingdom](#)
- P.14 Donation after circulatory death heart transplantation in japan: problems and solutions towards clinical implication / [Yasuhiro Kotani, Japan](#)
- P.15 Sometimes the best option available to you is none at all! 14 years of experience with Maastricht category IV donation after circulatory determination of death / [Amit Sharma, India](#)
- P.16 Organ procurement and transplantation in Poland in 2024 / [Teresa Danek, Poland](#)
- P.17 Activity-based cost analysis of organ donation in brain-dead donors / [Darunee Jaroensuk, Thailand](#)
- P.18 Key factors driving increased organ donations in Thailand / [Sakoonkaew Kaewprathom, Thailand](#)
- P.18a (406.5 in the Journal) Effect of the national critical care transport service on the activation of brain-dead organ donation in Korea / [Minjin Kang, Korea](#)
- P.19 Effect of implementing active organ and tissue donor detection in intensive care area of hospital Melaka: A 2 year retrospective study / [Hong Zhi Foo, Malaysia](#)
- P.19a (320.5 in Journal) Changes in notifications of brain-dead individuals and organ donations, and evaluation of medical staff satisfaction according to the operation period of the electronic notification system / [Jungha Kim, Korea](#)

- P.20 Turning potential into hope: How PPDDP is transforming organ donation in Iran
[Katayoun Najafizadeh, Iran](#)
- P.21 Navigating beyond the DonateLife audit: Exploring referral themes - the key to bridging the gap in donor referral practice / [Katherine F Gray, Australia](#)
- P.22 Bridging the gaps - collaborating with organ and tissue donation clinical champions to break barriers and improve donation outcomes / [Katherine F Gray, Australia](#)
- P.23 A poisonous decision – Exploring medical suitability / [Katherine F Gray, Australia](#)
- P.24 DonorLines: A prospective cohort- and biobank study of deceased organ donors in the Netherlands / [Isabelle J.C. Dielwart, Netherlands](#)
- P.25 Adaptive platform trial for deceased organ donation optimisation: OPTIDON APT
[Dashiehl Gantner, Australia](#)
- P.26 HLA genotype frequencies in Saudi Arabia: Enhancing organ transplantation and development of a national PRA calculator / [Jamail M. Ghafwari, Saudi Arabia](#)
- P.29 Safeguarding last wishes: A collaborative process for developing an ethical framework for donation after assisted dying / [Kim Grayson, New Zealand](#)
- P.30 Seeing without being seen: A pilot of mirror monitoring in DCDD donation /
[Nicole Coleman, Australia](#)
- P.31 Pediatric organ donation from non-pediatric intensive care units (PICU) facilities: Single center experience in Japan / [Mikiko Nakata, Japan](#)
- P.32 Survey of Japanese in-hospital coordinators on care of family of the organ donors /
[Nana Takewaki, Japan](#)
- P.33 Early surgical experience and learning curve of robot-assisted donor nephrectomy by a junior surgeon: A propensity score-matched comparison with laparoscopic approach / [Ara Cho, Korea](#)
- P.34 Prospective cohort profile of transplantation recipients and donors aiming to identify biopsychosocial markers of postoperative outcomes / [Hyejin Kim, Korea](#)
- P.35 Clinical utility of the 2021 CKD-EPI equation in living kidney donor evaluation /
[Jeeyoung Kim, Korea](#)
- P.36 Graft outcome by height difference between recipient and donor in living donor kidney transplantation / [Taehee Kim, Korea](#)
- P.37 Analysis of the donor factors for the risk of early allograft dysfunction after living donor liver transplantation / [Sukwon Suh, Korea](#)
- P.38 Septic patients as an organ donors / [Martin Chrastina, Slovakia \(Slovak Republic\)](#)
- P.39 Post-Transplant Lymphoproliferative Disorder in Kidney Transplant Recipients /
[Tao Qiu, Hong Kong](#)
- P.40 Organ Transplantation Strategies for Primary Hyperoxaluria / [Tao Qiu, Hong Kong](#)
- P.41 Awareness of the emergency life-saving technicians toward organ donation and their feasibility of confirming emergency patients' declaration cards regarding organ donation on site /
[Yumie Ohata, Japan](#)
- P.42 Efforts to expand the donor and bereaved family honor program to raise positive awareness of brain death donations and future directions / [Chan Soo Park, Korea](#)
- P.43 A single-center analysis on the clinical profile of kidney transplant recipients in the Philippines
[Ronaldo R Quintana, Philippines](#)
- P.44 Profile analysis of deceased donor kidney transplant: a retrospective demographic review in the Philippines / [Ronaldo R Quintana, Philippines](#)
- P.45 Age-stratified analysis of patient and graft survival outcomes in donation after circulatory death versus donation after brain death kidney transplantation / [Napat Leeaphorn, FL, United States](#)

- P.46 Extended outcomes of dual kidney transplantation from elderly expanded criteria donors: A single-center update / [Kyowon Lee, Korea](#)
- P.49 Educate, develop, empower: Tracing the evolution of specialist nurse organ donation education in the UK / [Olive McGowan, United Kingdom](#)
- P.50 Donor family perspectives on deceased organ donation: Responses to a survey about meeting their organ donation needs and factors influencing decision making / [Olive McGowan, United Kingdom](#)
- P.51 Grief care for organ donor families in Taiwan: A case study of a single medical center / [Wen Yu Hsu, Taiwan](#)
- P.52 Hospital-based multimodal interactive strategies: Practical experience in promoting organ donation awareness / [Wen Yu Hsu, Taiwan](#)
- P.53 Singapore speaks: Public attitudes and barriers toward organ donation – A national survey-based study / [Shannon Baey, Singapore](#)
- P.54 Organ transplant awareness activities in Hiroshima / [Akiko Kawahara, Japan](#)
- P.55 Activities and donor trends of the east Japan tissue transplant network (EJTTN): Implications for advancing regional tissue donation / [Hiroshi Maeda, Japan](#)
- P.56 Current status of tissue donor and recipient registries in Japan, 2024: A report from the Japan Society for Tissue Transplantation (JSTT) / [Yuji Sampei, Japan](#)
- P.57 Amniotic membrane bank activities for amniotic membrane transplantation at the University of Osaka Hospital / [Mayako Tada, Japan](#)
- P.58 Experiences and perceptions of Spanish and Swedish critical care nurses participating in the controlled DCD process / [Anne Floden, Sweden](#)

EXCOR® Pediatric

小児用体外設置式補助人工心臓システム

世界で唯一の小児用VADシステム

- ◀ 新生児、乳幼児に適した 10mL からのポンプサイズ
- ◀ 安全性を高めるための三層構造のメンブレン
- ◀ 長期間にわたって抗血栓性を保つ Carmeda バイオアクティブヘパリンコーティング

NEW MODEL

EXCOR® ACTIVE

▶ 静かで小さいモバイル駆動装置

販売名：EXCOR Pediatric 小児用体外設置式補助人工心臓システム（特定保守管理医療機器・高度管理医療機器・生物由来製品）、承認番号：22700BZX00179000、クラス：Ⅲ
販売販売元：株式会社カルディオ 兵庫県神戸市中央区港島南町 6 丁目 3 番 7 クリエイティブラボ神戸 3 階

Saturday, December 06, 2025

08:00-09:30

400 Plenary Session on Ethical Guidance for Research Involving Deceased Donation and Transplantation

Annex Hall 1 (1F)

Moderators: *Helen Opdam, Australia and Anne Floden, Sweden*

400.1 *Video Presentation from Iran - recipients*

400.2 Why a framework for deceased donor research is required? / [Gabriel C. Oniscu, Sweden](#)

400.3 Overview of the INTEGRITY project - present the culmination of the first 12 months – stage 1 of this work / [Dominique E Martin, Australia](#)

400.4 Consent for research in deceased donation / [Frederick D'Aragon, QC, Canada](#)
Panel Discussion

09:30-10:00

Coffee Break

Swan Room

10:00-11:30

405 Oral Abstract Session on Machine perfusion with/without NRP

Annex Hall 1 (1F)

Moderators: *Gabriel C. Oniscu, Sweden and Hiromichi Obara, Japan*

405.1 Unintended resuscitation during controlled donation after circulatory death with abdominal normothermic regional perfusion: A case of probable pathological collateral circulation
[Stein Foss, Norway](#)

405.2 Normothermic regional perfusion adoption in the United States: Operational perspectives from organ procurement organizations / [Macey L Levan, NY, United States](#)

405.3 Impact on liver and kidney placement by a fully operationalized normothermic regional perfusion program at a US organ procurement organization / [Marty T Sellers, PA, United States](#)

405.4 Outcomes of kidney transplantation from uncontrolled donation after circulatory death. A retrospective study of Botkin Hospital / [Elmira Tenchurina, Russian Federation](#)

405.5 Outcomes from a nascent A-NRP program—one OPO's experience / [Gennifer Collins, SC, United States](#)

405.6 Ex vivo delivery of autologous regulatory T cells during normothermic machine perfusion in porcine kidney transplantation / [Masataka Kawamura, Japan](#)

405.7 Development of uncontrolled organ donation program in Moscow / [Marina Minina, Russian Federation](#)

10:00-11:30

406 Oral Abstract Session on Donation system organisation 2

Room C-1 (1F)

Moderators: *Sumihito Tamura, Japan and Theresa A Daly, United States*

406.1 Implementation of a statewide allocation system for deceased donor kidneys at risk of prolonged cold ischaemia in Victoria Australia / [Kevin Chow, Australia](#)

406.2 Global survey on system-level barriers that reduce access to transplantation / [Andrea Herrera-Gayol, QC, Canada](#)

406.4 Admissions to intensive care for organ donation in Australia since 2008 / [Dashiell Gantner, Australia](#)

406.6 How Sweden will achieve a clinically driven tissue service by 2030: A data-driven approach
[Maria A McGee, Sweden](#)

- 406.7 Pediatric organ donation and transplantation trends in the USA / [Thomas A Nakagawa, FL, United States](#)
- 406.8 Never event(s) in solid organ transplantation: ABO incompatibility / [Olive McGowan, United Kingdom](#)
- 406.9 Institutional variability in brain-dead organ donation processes and practices: A multicenter retrospective cohort study in Japan / [Tetsuya Yumoto, Japan](#)

10:00-11:30

407 Concurrent Session on How to improve organ utilization rates

Room C-2 (1F)

Moderators: Juntaro Ashikari, Japan and Sunil Shroff, India

- 407.1 *Video Presentation from Australia - Kidney*
- 407.2 Organ utilisation: UK new approach / [John Forsythe, United Kingdom](#)
- 407.3 Expedited allocation to increase utilization: US experience / [Jeffrey P. Orlowski, OK, United States](#)
- 407.4 How to maximize organs transplanted per brain dead donor (OTPD) / [Norihide Fukushima, Japan](#)
- 407.5 Reducing organ discard rate by multinational cooperation / [Axel Rahmel, Germany](#)
- Panel Discussion

10:00-11:30

408 Concurrent Session on Preparing for every opportunity through professional education

Annex Hall 2 (1F)

Moderators: Katayoun Najafizadeh, Iran and Chloë Ballesté Delpierre, Spain

- 408.1 *Video Presentation from Pakistan - Cornea*
- 408.2 The significance of university education in promoting unbiased and objective professionalism on organ donation / [Shunichi Yoshikai, Japan](#)
- 408.3 Learning curve and the career pathway for donation coordinators / [Alison Hodak, Australia](#)
- 408.4 Gift of Life Donor Program virtual BD training / [Richard Hasz, PA, United States](#)
- 408.5 Simulation training "The best way to train for change" / [Chloë Ballesté Delpierre, Spain](#)

11:30-12:30

410 Closing Plenary on Addressing Disparities and Performance in Organ Donation: The Role of ISODP

Annex Hall 1 (1F)

Moderators: Helen Opdam, Australia and Norihide Fukushima, Japan

- 410.1 *Video Presentation from Australia - Bowel and liver*
- 410.2 Advancing donation in Eastern Asia; perspective(s) from South Korea / [Samuel Lee, Korea](#)
- 410.3 Global Initiatives to Improve Donation Monitoring and Collaboration / [David D Thomson, South Africa](#)
- 410.4 The place of ISODP in Global Leadership / [Jeffrey P. Orlowski, OK, United States](#)
- 410.5 Closing Remark by Congress Chair / [Norihide Fukushima, Japan](#)
- 410.6 Presentation for ISODP 2027 / [Jeffrey P. Orlowski, OK, United States](#)

FUJI BUSINESS JET Co., Ltd.

***Beyond Distance.
Beyond Safety.
Japan's Business Aviation, Elevated.***

At Fuji Business Jet (FBJ), we provide premium aviation services—operation, maintenance, and hangar support—backed by the trusted Suzuo Group. With a large fleet and deep expertise, we deliver safe, seamless travel and support vital missions such as urgent organ transport, shaping the future of private flight in Japan.

Aircraft

Citation CJ2+ (JA359C • JA391C)

Citation CJ4Gen2 (JA01BJ)

Falcon2000LXS (JA16AC)

Safety Backed by Certified Professionals

Our nationally certified maintenance team and skilled pilots ensure stable, reliable operations from our approved facility at Mt. Fuji Shizuoka Airport—so you can enjoy every flight with confidence.

(As of April 1, 2025)

- **Maintenance Engineers**
 - Japan (National Certification): 22 engineers
 - USA (FAA A&P): 6 engineers
- **Pilots:** 13 skilled flight crew members

FBJ Maintenance Facility

3,600 m² with 13.5 m high doors
17.5 m maximum height, 73 m × 50 m footprint

Innovation in Automation

採血管をセットするだけ
前処理からLCMS分析まで全自動化を実現
薬物濃度測定の信頼性・業務効率向上に寄与します

全自動LCMS前処理装置

CLAM-2040

- ☐ 手作業によるサンプル前処理不要
- ☐ タッチパネルで簡単操作
- ☐ 免疫抑制剤、薬毒物等、幅広い測定実績

※ 本製品は研究用途にのみ使用可能です。医薬品医療機器法に基づく医療機器として承認・認証を受けておりません。
治療診断目的およびその手続き上での使用はできません。

レディメイドの試薬キットが、薬物濃度モニタリングを支援します

LC-MS/MS 用免疫抑制剤分析キット

DOSIMMUNE

分析成分 **4成分**

シクロスポリンA、タクロリムス、エベロリムス、シロリムス

LC-MS/MS 用免疫抑制剤(ミコフェノール酸)分析キット

DOSIMYCO

分析成分 **2成分**

ミコフェノール酸、ミコフェノール酸β-D-グルクロニド

LC-MS/MS 用抗凝固剤分析キット

DOSINACO

分析成分 **DOAC含む9成分**

アピキサバン、ダビガトラン、エドキサバン、リバーロキサバン、ワルファリン、
アセノクマロール、アルガトロバン、ベトリキサバン、フルイソグオン

- ☐ 特異性の高い同時測定
- ☐ 高品質なデータを簡便に
- ☐ さらなる省力化

※ DOSIMMUNE、DOSIMYCO、DOSINACOキットはLCMSによる血中薬物濃度モニタリングに必要な標準品、
移動相等を組み合わせたものです。(医薬品医療機器法に基づく体外診断用医薬品には該当しません。)

Inspiration of JAPAN

A STAR ALLIANCE MEMBER

www.anaskyweb.com

Join ISODP Today!

Advancing donation through science, developing professionals and inspiring networks supporting organ donation to improve organ transplantation worldwide.

- Access to multimedia content from past congresses and webinars
- Eligibility to apply for ISODP travel grants to Congresses
- Access to the member directory
- Reduced biennial Congress registration fees (up to \$200 savings)
- Voting and nomination rights for ISODP Council elections
- ISODP Members receive \$50 off their TTS membership dues when paying both at the same time
- TTS's Weekly Tribune Pulse Newsletter updating members on TTS and ISODP activities
- Access to ISODP Journal Watch – Quarterly review of top papers
- Access to ISODP Educational Watch - International perspectives in organ and tissue donation for a variety of professional roles.

Membership Fees:
